REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance.

In addition to the applicant(s) remarks filed on 11/29/04, which have been fully incorporated by reference herein, the examiner would like to add additional comments as noted below.

Regarding Claim(s) 10, 15, and 22, the prior art does not teach all of the limitations of the claimed invention including a plurality of mounting member for mounting electrical components where each of the mounting members includes a respective data storage device and each of the data storage devices stores position data of the mounting member relative to a fixed reference mark.

Regarding Claim(s) 33, the prior art does not teach all of the limitations of the claimed invention including each of the mounting members respectively including data storage means for storing position data of the mounting member relative to a fixed relative mark. Here, the applicant(s) have invoked 35 U. S. C. 112, 6th paragraph as to the claimed "data storage means".

Upon further and careful review of the reference to Asai et al'292 (as applied in the Final Rejection, dated 8/11/04), Asai et al'292 does teach data storage devices or data storage means (ROM or RAM) for the mounting members (working modules). Asai even teaches that the data storage devices store position data (see col. 2, lines 58-66). However, the position data noted by Asai is for the components, i.e. circuit boards and electronic components, themselves and not for the mounting members (working modules). Therefore, Asai et al'292 does not satisfy the features discussed above.

Accordingly, Claims 10-15, 17, 20, 22-28, 30, 32 and 33 are allowed.

Art Unit: 3729

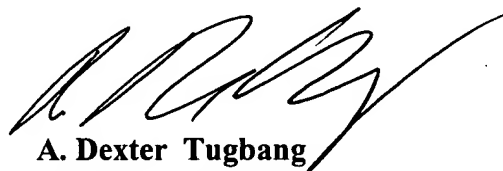

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
